Zheng K-C, Adjei AA, Shinjo M, Shinjo S, Todoriki H, Ariizumi M. Effect of Dietary Vitamin E Supplementation on Murine Nasal Allergy, 318(1):49-54

Subject Index

Abciximab, use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114

Academic medicine, survival in 21st century, 318(3):125–129

Adenosine triphosphate, changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121

African Americans, IgA anticardiolipin and anti-b_2-glycoprotein I are most prevalent isotypes in African American patients with systemic lupus erythematosus, 318(1):55–60

Airway hyperresponsiveness, pathogenesis of chronic obstructive pulmonary disease, 318(2):74–78

Alendronate, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Allergy, effect of dietary vitamin E supplementation on murine nasal allergy, 318(1):49–54

Alum, encephalopathy after bladder irrigation with, 318(3):181–185

5-Aminolevulinic acid synthase, cell biology of heme, 318(4):241–256

Anemia
- measurement of serum transferrin receptor, 318(4):269–276
- pathophysiology of glossal pain in patients with iron deficiency and, 318(5):324–329

Anesthesia, topical, methemoglobinemia induced by, 318(6):415–418

Anethole trithione, treatment of xerostomia with, 318(3):146–151

Angina
- left main coronary artery disease, 318(6):406–412
- prevalence of atypical chest pain descriptions in population from southern United States, 318(3):142–145
- use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114

Angiotensin II, intracellular, potential mechanisms and physiologic actions of, 318(6):374–379

Animal studies
- effect of dietary vitamin E supplementation on murine nasal allergy, 318(1):49–54
- modulation of renin secretion by atrial natriuretic factor prohormone fragment 31–67, 318(5):330–335

Antibodies, IgA anticardiolipin and anti-b_2-glycoprotein I are most prevalent isotypes in African American patients with systemic lupus erythematosus, 318(1):55–60

Antimicrobial therapy, role in acute exacerbations of chronic bronchitis, 318(2):84–88

Antioxidants
- alternative therapies for chronic bronchitis, 318(2):96–98
- mitochondrial antioxidant function is potential mechanism for organ differences in interleukin-1-mediated tolerance to oxidative injury, 318(5):308–315

Antiproteases, alternative therapies for chronic bronchitis, 318(2):96–98

Apoptosis, cardiac fatty acid metabolism and induction of, 318(1):15–21

Ascites
- acute transient chylous ascites associated with acute biliary pancreatitis, 318(2):122–123
- massive, caused by peritoneal extramedullary hematopoiesis as initial manifestation of myelofibrosis, 318(3):198–200
- and pleural effusion secondary to extramedullary hematopoiesis, 318(4):286–288

Atrial natriuretic factor, modulation of renin secretion by atrial natriuretic factor prohormone fragment 31–67, 318(5):330–335

Autoimmunity
- high prevalence of hypothyroidism in patients with primary pulmonary hypertension, 318(5):289–292
- Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis, 318(5):353–355

Autonomic disorders, interaction of genetic predisposition and environmental factors in pathogenesis of idiopathic orthostatic intolerance, 318(5):298–303

Biliary pancreatitis, acute transient chylous ascites associated with, 318(2):122–123

Bisphosphonates
- effect of calcitriol and pamidronate in multiple myeloma, 318(1):61–66
- treatment considerations in management of age-related osteoporosis, 318(3):158–169

Bladder, encephalopathy after bladder irrigation with alum, 318(3):181–185

Bleeding, surgery-associated factor VIII inhibitors in patients without hemophilia, 318(5):350–352

Blood volume, and renal function in overt and subclinical primary hypothyroidism, 318(4):277–280

Body weight
- plasma leptin concentrations and lipid profiles during nicotine abstinence, 318(3):152–157
- pulmonary physiologic changes of morbid obesity, 318(5):293–297

Bone healing, effect of calcitriol and pamidronate in multiple myeloma, 318(1):61–66

Bone mineral density, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Brain, encephalopathy after bladder irrigation with alum, 318(3):181–185

Breathing retraining, pulmonary rehabilitation for patient with severe chronic obstructive pulmonary disease, 318(2):99–102

Bronchiolitis, Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis, 318(5):353–355

Bronchitis, chronic. *See also* Chronic obstructive pulmonary disease
- alternative therapies for, 318(2):96–98
- course and prognosis of chronic obstructive pulmonary disease, 318(2):103–106
- role of antimicrobial therapy in acute exacerbations of, 318(2):84–88

Bronchodilators, outpatient management of chronic obstructive pulmonary disease, 318(2):79–83

Calcitonin, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Calcitriol, effect of pamidronate and, in multiple myeloma, 318(1):61–66

Calcium
- hypercalcemia associated with infection by *Cryptococcus neoformans* and *Coccidioides immitis,* 318(6):419–423
- intractable hypercalcemia due to metastatic carcinoid secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205
- treatment considerations in management of age-related osteoporosis, 318(3):158–169

Carbon monoxide, cell biology of heme, 318(4):241–256

Carbonic anhydrase VI deficiency
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6):380–391
- efficacy of exogenous oral zinc in treatment of patients with, 318(6):392–404

Carcinoid tumor, intractable hypercalcemia due to metastatic carcinoid

secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205
Cardiology Grand Rounds
"graphic experience" as clinical science: thoughts on precordial leads of Wolferth and Wood, 318(5):336–338
left main coronary artery disease, 318(6):406–412
use of coronary flow reserve to evaluate physiologic significance of coronary artery disease, 318(4):281–285
use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114
Cardiovascular disease
carnitine-acylcarnitine translocase deficiency, 318(1):22–27
dominant role of systolic hypertension as vascular risk factor, 318(6):365–368
fatty acid utilization in hypertrophied and failing heart: molecular regulatory mechanisms, 318(1):36–42
left main coronary artery disease, 318(6):406–412
managing hypertension in Southeastern United States, 318(6):357–364
prevalence of atypical chest pain descriptions in population from southern United States, 318(3):142–145
use of coronary flow reserve to evaluate physiologic significance of coronary artery disease, 318(4):281–285
use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114
Carnitine
carnitine-acylcarnitine translocase deficiency, 318(1):22–27
role of carnitine system in peroxisomal fatty acid oxidation, 318(1):28–35
Carnitine palmitoyltransferase
expression and regulation of carnitine palmitoyltransferase-1a and -1b genes, 318(1):43–48
fatty acid oxidation in reperfused ischemic heart, 318(1):3–14
Cell biology
of heme, 318(4):241–256
introduction to symposium on iron, 318(4):207–212
potential mechanisms and physiologic actions of intracellular angiotensin II, 318(6):374–379
Chest pain
left main coronary artery disease, 318(6):406–412
prevalence of atypical chest pain descriptions in population from southern United States, 318(3):142–145
use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114
Chronic obstructive pulmonary disease
alternative therapies for chronic bronchitis, 318(2):96–98
course and prognosis of, 318(2):103–106
introduction to symposium on, 318(2):73
outpatient management of, 318(2):79–83
pathogenesis of, 318(2):74–78
role of antimicrobial therapy in acute exacerbations of chronic bronchitis, 318(2):84–88
severe, pulmonary rehabilitation for patient with, 318(2):99–102
surgical treatment of, 318(2):89–95
Chylous ascites, acute transient, associated with acute biliary pancreatitis, 318(2):122–123
Coagulation, surgery-associated factor VIII inhibitors in patients without hemophilia, 318(5):350–352
Coccidioides immitis, hypercalcemia associated with infection by *Cryptococcus neoformans* and, 318(6):419–423
Collagen, changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121
Consortium for Southeastern Hypertension Control
dominant role of systolic hypertension as vascular risk factor: evidence from Southeastern United States, 318(6):365–368
hypertension and renal disease in Puerto Ricans, 318(6):369–373
managing hypertension in Southeastern United States: applying guidelines from Sixth Report of Joint National Committee on Prevention, Detection, Evaluation, and Treatment of High Blood Pressure, 318(6):357–364
potential mechanisms and physiologic actions of intracellular angiotensin II, 318(6):374–379
Coronary artery disease
left main coronary artery disease, 318(6):406–412
use of coronary flow reserve to evaluate physiologic significance of, 318(4):281–285
use of glycoprotein IIb/IIIa inhibitors in patients with, 318(2):107–114
Corticosteroids
outpatient management of chronic obstructive pulmonary disease, 318(2):79–83
rare case of sarcoidosis with bilateral leg lymphedema as initial symptom, 318(6):413–414
Creatine phosphokinase, acute hypernatremia and neuroleptic malignant syndrome in Parkinson disease, 318(1):67–68
Cryosupernatant, treatment of thrombotic thrombocytopenic purpura with cryosupernatant fraction of plasma, 318(3):190–193
Cryptococcus neoformans, hypercalcemia associated with infection by *Coccidioides immitis* and, 318(6):419–423
Cystitis, encephalopathy after bladder irrigation with alum, 318(3):181–185
Diabetes mellitus, usefulness of fructosamine for monitoring outpatients with, 318(5):316–323
Diet, effect of dietary vitamin E supplementation on murine nasal allergy, 318(1):49–54
Divalent cation transporter 1, iron absorption and transport, 318(4):213–229
Elderly persons
dominant role of systolic hypertension as vascular risk factor, 318(6):365–368
treatment considerations in management of age-related osteoporosis, 318(3):158–169
Electrocardiography, "graphic experience" as clinical science: thoughts on precordial leads of Wolferth and Wood, 318(5):336–338
Emphysema. *See* Chronic obstructive pulmonary disease
Encephalopathy, after bladder irrigation with alum, 318(3):181–185
Energy metabolism, fatty acid utilization in hypertrophied and failing heart: molecular regulatory mechanisms, 318(1):36–42
Environmental factors, interaction of genetic predisposition and, in pathogenesis of idiopathic orthostatic intolerance, 318(5):298–303
Enzyme deficiency
carnitine-acylcarnitine translocase deficiency, 318(1):22–27
decreased parotid saliva gustin/carbonic anhydrase VI secretion, 318(6):380–391
efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404
patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and myelodysplastic syndromes, 318(6):424–427
Eosinophilic fasciitis, lymph-node-based malignant lymphoma and reactive lymphadenopathy in, 318(5):343–349
Eptifibatide, use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114
Erythroid cells
cell biology of heme, 318(4):241–256
measurement of serum transferrin receptor, 318(4):269–276
Estrogen, treatment considerations in management of age-related osteoporosis, 318(3):158–169
Exercise, pulmonary rehabilitation for patient with severe chronic obstructive pulmonary disease, 318(2):99–102
Expectorants, alternative therapies for chronic bronchitis, 318(2):96–98
Extramedullary hematopoiesis
ascites and pleural effusion secondary to, 318(4):286–288

massive ascites caused by peritoneal extramedullary hematopoiesis as initial manifestation of myelofibrosis, 318(3):198–200

Factor VIII inhibitors, surgery-associated, in patients without hemophilia, 318(5):350–352

Fatty acid metabolism
- cardiac fatty acid metabolism and induction of apoptosis, 318(1):15–21
- carnitine-acylcarnitine translocase deficiency, 318(1):22–27
- expression and regulation of carnitine palmitoyltransferase-1a and -1b genes, 318(1):43–48
- fatty acid oxidation in reperfused ischemic heart, 318(1):3–14
- fatty acid utilization in hypertrophied and failing heart: molecular regulatory mechanisms, 318(1):36–42
- introduction and comments from editor, 318(1):1–2
- role of carnitine system in peroxisomal fatty acid oxidation, 318(1):28–35

Fractures, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Fructosamine, usefulness for monitoring outpatients with diabetes, 318(5):316–323

Genetics
- expression and regulation of carnitine palmitoyltransferase-1a and -1b genes, 318(1):43–48
- interaction of genetic predisposition and environmental factors in pathogenesis of idiopathic orthostatic intolerance, 318(5):298–303
- introduction to symposium on iron, 318(4):207–212
- patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and myelodysplastic syndromes, 318(6):424–427
- regulation of genes of iron metabolism by iron-response proteins, 318(4):230–240

Glossal pain, pathophysiology in patients with iron deficiency and anemia, 318(5):324–329

Glucose
- fatty acid oxidation in reperfused ischemic heart, 318(1):3–14
- usefulness of fructosamine for monitoring outpatients with diabetes, 318(5):316–323

Glutathione-*S*-transferase, patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and myelodysplastic syndromes, 318(6):424–427

Glycoprotein IIb/IIIa inhibitors, use in patients with coronary artery disease, 318(2):107–114

Granuloma, idiopathic giant-cell granulomatous hypophysitis mimicking acute meningitis, 318(5):339–342

Gustin
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6):380–391
- efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404

Health promotion, managing hypertension in Southeastern United States, 318(6):357–364

Heart. *See also* Cardiovascular disease
- cardiac fatty acid metabolism and induction of apoptosis, 318(1):15–21
- fatty acid oxidation in reperfused ischemic heart, 318(1):3–14
- "graphic experience" as clinical science: thoughts on precordial leads of Wolferth and Wood, 318(5):336–338

Hematology
- ascites and pleural effusion secondary to extramedullary hematopoiesis, 318(4):286–288
- cell biology of heme, 318(4):241–256
- massive ascites caused by peritoneal extramedullary hematopoiesis as initial manifestation of myelofibrosis, 318(3):198–200
- measurement of serum transferrin receptor, 318(4):269–276
- methemoglobinemia induced by topical anesthesia, 318(6):415–418
- surgery-associated factor VIII inhibitors in patients without hemophilia, 318(5):350–352

Hemochromatosis, new developments in, 318(4):257–268

Hepatitis B vaccine, for patients with chronic liver disease awaiting liver transplantation, 318(5):304–307

Hephaestin, iron absorption and transport, 318(4):213–229

***HFE* gene,** new developments in hemochromatosis, 318(4):257–268

High-density lipoprotein cholesterol, plasma leptin concentrations and lipid profiles during nicotine abstinence, 318(3):152–157

Hip fracture, treatment considerations in management of age-related osteoporosis, 318(3):158–169

History of medicine, metamorphosis of scientific medicine in ever-present past, 318(3):171–180

Hodgkin's disease, lymph-node-based malignant lymphoma and reactive lymphadenopathy in eosinophilic fasciitis, 318(5):343–349

Hormones
- idiopathic giant-cell granulomatous hypophysitis mimicking acute meningitis, 318(5):339–342
- modulation of renin secretion by atrial natriuretic factor prohormone fragment 31–67, 318(5):330–335

Human immunodeficiency virus infection, hypercalcemia associated with infection by *Cryptococcus neoformans* and *Coccidioides immitis,* 318(6):419–423

Hyperammonemia, carnitine-acylcarnitine translocase deficiency, 318(1):22–27

Hypercalcemia
- associated with infection by *Cryptococcus neoformans* and *Coccidioides immitis,* 318(6):419–423
- intractable, due to metastatic carcinoid secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205

Hyperinsulinemia, hypokalemic periodic paralysis associated with hypophosphatemia in patient with, 318(1):69–72

Hypernatremia, acute, and neuroleptic malignant syndrome in Parkinson disease, 318(1):67–68

Hypertension
- changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121
- diagnosis and management of pheochromocytoma during pregnancy, 318(3):186–189
- dominant role of systolic hypertension as vascular risk factor, 318(6):365–368
- management in Southeastern United States, 318(6):357–364
- potential mechanisms and physiologic actions of intracellular angiotensin II, 318(6):374–379
- and renal disease in Puerto Ricans, 318(6):369–373

Hypoglycemia, carnitine-acylcarnitine translocase deficiency, 318(1):22–27

Hypokalemic periodic paralysis, associated with hypophosphatemia in patient with hyperinsulinemia, 318(1):69–72

Hypopituitarism, idiopathic giant-cell granulomatous hypophysitis mimicking acute meningitis, 318(5):339–342

Hyposalivation, treatment of xerostomia with bile secretion-stimulating drug anethole trithione, 318(3):146–151

Hypothyroidism
- blood volume and renal function in overt and subclinical primary hypothyroidism, 318(4):277–280
- high prevalence in patients with primary pulmonary hypertension, 318(5):289–292

Hypoxemia, methemoglobinemia induced by topical anesthesia, 318(6):415–418

Idiopathic thrombocytopenic purpura, Lambert-Eaton myasthenic syndrome associated with diffuse panbronchiolitis and, 318(5):353–355

Immunization, against hepatitis B in patients with chronic liver disease awaiting liver transplantation, 318(5):304–307

Immunoglobulin, Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis: long-term remission after course of intravenous immunoglobulin combined with low-dose prednisolone, 318(5): 353–355
Immunostimulants, alternative therapies for chronic bronchitis, 318(2): 96–98
Infection
hypercalcemia associated with infection by *Cryptococcus neoformans* and *Coccidioides immitis,* 318(6):419–423
role of antimicrobial therapy in acute exacerbations of chronic bronchitis, 318(2):84–88
Integrin, iron absorption and transport, 318(4):213–229
Interleukins
intractable hypercalcemia due to metastatic carcinoid secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205
mitochondrial antioxidant function is potential mechanism for organ differences in interleukin-1-mediated tolerance to oxidative injury, 318(5):308–315
Intracellular signaling, potential mechanisms and physiologic actions of intracellular angiotensin II, 318(6): 374–379
Iron
absorption and transport, 318(4):213–229
cell biology of heme, 318(4):241–256
introduction to symposium on, 318(4): 207–212
measurement of serum transferrin receptor, 318(4):269–276
methemoglobinemia induced by topical anesthesia, 318(6):415–418
new developments in hemochromatosis, 318(4):257–268
pathophysiology of glossal pain in patients with iron deficiency and anemia, 318(5):324–329
regulation of genes of iron metabolism by iron-response proteins, 318(4): 230–240

Juxtaglomerular cell tumor, renal, segmental sampling to prove autonomic secretion of, 318(3):194–197

Lambert-Eaton myasthenic syndrome, associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis, 318(5):353–355
Lamifiban, use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114
Leptin, plasma leptin concentrations and lipid profiles during nicotine abstinence, 318(3):152–157
Libraries, metamorphosis of scientific medicine in ever-present past, 318(3):171–180
Liver disease, vaccination against hepatitis B in patients with chronic liver disease awaiting liver transplantation, 318(5):304–307
Local anesthetics, methemoglobinemia induced by topical anesthesia, 318(6):415–418
Lung cancer, patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and myelodysplastic syndromes, 318(6):424–427
Lung transplantation, surgical treatment of chronic obstructive pulmonary disease, 318(2):89–95
Lymphedema, rare case of sarcoidosis with bilateral leg lymphedema as initial symptom, 318(6):413–414
Lymphoma, lymph-node-based malignant lymphoma and reactive lymphadenopathy in eosinophilic fasciitis, 318(5):343–349

Malonyl coenzyme A, fatty acid oxidation in reperfused ischemic heart, 318(1):3–14
Medical education
metamorphosis of scientific medicine in ever-present past, 318(3):171–180
survival of academic medicine in 21st century, 318(3):125–129
Meningitis, idiopathic giant-cell granulomatous hypophysitis mimicking, 318(5):339–342
Methemoglobinemia, induced by topical anesthesia, 318(6):415–418
Methylxanthines, outpatient management of chronic obstructive pulmonary disease, 318(2):79–83
Metyrosine, diagnosis and management of pheochromocytoma during pregnancy, 318(3):186–189
Mitochondria
cardiac fatty acid metabolism and induction of apoptosis, 318(1):15–21
fatty acid utilization in hypertrophied and failing heart: molecular regulatory mechanisms, 318(1):36–42
mitochondrial antioxidant function is potential mechanism for organ differences in interleukin-1-mediated tolerance to oxidative injury, 318(5):308–315
Mobilferrin, iron absorption and transport, 318(4):213–229
Mucolytics, alternative therapies for chronic bronchitis, 318(2):96–98
Multiple myeloma, effect of calcitriol and pamidronate in, 318(1):61–66
Muscle, rhabdomyolysis associated with near-drowning, 318(3):201–202
Myelodysplastic syndromes, patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and, 318(6):424–427
Myelofibrosis
ascites and pleural effusion secondary to extramedullary hematopoiesis, 318(4): 286–288
massive ascites caused by peritoneal extramedullary hematopoiesis as initial manifestation of, 318(3):198–200
Myocardial infarction
managing hypertension in Southeastern United States, 318(6):357–364
prevalence of atypical chest pain descriptions in population from southern United States, 318(3):142–145
use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114

Nasal allergy, murine, effect of dietary vitamin E supplementation on, 318(1):49–54
Near-drowning, rhabdomyolysis associated with, 318(3):201–202
Neonates, carnitine-acylcarnitine translocase deficiency, 318(1):22–27
Neoplasia
case of renal juxtaglomerular cell tumor: segmental sampling to prove autonomic secretion of tumor, 318(3): 194–197
diagnosis and management of pheochromocytoma during pregnancy, 318(3): 186–189
effect of calcitriol and pamidronate in multiple myeloma, 318(1):61–66
intractable hypercalcemia due to metastatic carcinoid secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205
lymph-node-based malignant lymphoma and reactive lymphadenopathy in eosinophilic fasciitis, 318(5): 343–349
patient with genetic deletion of glutathione-*S*-transferase T1 and M1 who developed non-small-cell lung cancer and myelodysplastic syndromes, 318(6):424–427
Neuroleptic malignant syndrome, acute hypernatremia and, in Parkinson disease, 318(1):67–68
Neuromuscular disease, Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis, 318(5):353–355
Nicotine, plasma leptin concentrations and lipid profiles during abstinence from, 318(3):152–157
Nitric oxide, cell biology of heme, 318(4): 241–256
Nuclear receptors, potential mechanisms and physiologic actions of intracellular angiotensin II, 318(6): 374–379

Obesity, morbid, pulmonary physiologic changes of, 318(5):293–297
Octreotide, intractable hypercalcemia due to metastatic carcinoid secret-

ing parathyroid hormone-related peptide and interleukin-6: response to, 318(3):203–205
Orthostatic intolerance, idiopathic, interaction of genetic predisposition and environmental factors in pathogenesis of, 318(5):298–303
Osteoporosis, age-related, treatment considerations in management of, 318(3):158–169
Oxidants, pathogenesis of chronic obstructive pulmonary disease, 318(2):74–78
βOxidation, role of carnitine system in peroxisomal fatty acid oxidation, 318(1):28–35
Oxidative stress
mitochondrial antioxidant function is potential mechanism for organ differences in interleukin-1-mediated tolerance to oxidative injury, 318(5):308–315
regulation of genes of iron metabolism by iron-response proteins, 318(4):230–240

Pain
pathophysiology of glossal pain in patients with iron deficiency and anemia, 318(5):324–329
prevalence of atypical chest pain descriptions in population from southern United States, 318(3):142–145
Pamidronate, effect of calcitriol and, in multiple myeloma, 318(1):61–66
Pancreatitis, acute biliary, acute transient chylous ascites associated with, 318(2):122–123
Paraferritin, iron absorption and transport, 318(4):213–229
Paraneoplastic syndrome, lymph-node-based malignant lymphoma and reactive lymphadenopathy in eosinophilic fasciitis, 318(5):343–349
Parathyroid hormone-related peptide, intractable hypercalcemia due to metastatic carcinoid secreting parathyroid hormone-related peptide and interleukin-6: response to octreotide, 318(3):203–205
Parkinson's disease, acute hypernatremia and neuroleptic malignant syndrome in, 318(1):67–68
Parotid saliva
decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6):380–391
efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404
Patient education, pulmonary rehabilitation for patient with severe chronic obstructive pulmonary disease, 318(2):99–102
Periodic paralysis, hypokalemic, associated with hypophosphatemia in patient with hyperinsulinemia, 318(1):69–72
Peroxisomal fatty acid oxidation, role of carnitine system in, 318(1):28–35
Pheochromocytoma, diagnosis and management during pregnancy, 318(3):186–189
Pituitary, idiopathic giant-cell granulomatous hypophysitis mimicking acute meningitis, 318(5):339–342
Plasma exchange therapy, treatment of thrombotic thrombocytopenic purpura with cryosupernatant fraction of plasma, 318(3):190–193
Platelet function, changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121
Pleural effusion, and ascites secondary to extramedullary hematopoiesis, 318(4):286–288
Portal hypertension, massive ascites caused by peritoneal extramedullary hematopoiesis as initial manifestation of myelofibrosis, 318(3):198–200
Postural tachycardia syndrome, interaction of genetic predisposition and environmental factors in pathogenesis of idiopathic orthostatic intolerance, 318(5):298–303
Prednisolone, Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis: long-term remission after course of intravenous immunoglobulin combined with low-dose prednisolone, 318(5):353–355
Preeclampsia, changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121
Pregnancy
changes in platelet ATP secretion and aggregation during pregnancy and in preeclampsia, 318(2):115–121
diagnosis and management of pheochromocytoma during, 318(3):186–189
Prevention
managing hypertension in Southeastern United States, 318(6):357–364
outpatient management of chronic obstructive pulmonary disease, 318(2):79–83
Protease, pathogenesis of chronic obstructive pulmonary disease, 318(2):74–78
Puerto Ricans, hypertension and renal disease in, 318(6):369–373
Pulmonary disorders
alternative therapies for chronic bronchitis, 318(2):96–98
course and prognosis of chronic obstructive pulmonary disease, 318(2):103–106
high prevalence of hypothyroidism in patients with primary pulmonary hypertension, 318(5):289–292
introduction to symposium on chronic obstructive pulmonary disease, 318(2):73
Lambert-Eaton myasthenic syndrome associated with idiopathic thrombocytopenic purpura and diffuse panbronchiolitis, 318(5):353–355
outpatient management of chronic obstructive pulmonary disease, 318(2):79–83
pathogenesis of chronic obstructive pulmonary disease, 318(2):74–78
pulmonary physiologic changes of morbid obesity, 318(5):293–297
pulmonary rehabilitation for patient with severe chronic obstructive pulmonary disease, 318(2):99–102
role of antimicrobial therapy in acute exacerbations of chronic bronchitis, 318(2):84–88
surgical treatment of chronic obstructive pulmonary disease, 318(2):89–95
Pyruvate dehydrogenase, fatty acid oxidation in reperfused ischemic heart, 318(1):3–14

Race and ethnicity
hypertension and renal disease in Puerto Ricans, 318(6):369–373
IgA anticardiolipin and anti-b_2-glycoprotein I are most prevalent isotypes in African American patients with systemic lupus erythematosus, 318(1):55–60
Raloxifene, treatment considerations in management of age-related osteoporosis, 318(3):158–169
Reactive oxygen species, introduction to symposium on iron, 318(4):207–212
Reduction pneumoplasty, surgical treatment of chronic obstructive pulmonary disease, 318(2):89–95
Renal disease
blood volume and renal function in overt and subclinical primary hypothyroidism, 318(4):277–280
case of renal juxtaglomerular cell tumor: segmental sampling to prove autonomic secretion of tumor, 318(3):194–197
dominant role of systolic hypertension as vascular risk factor, 318(6):365–368
encephalopathy after bladder irrigation with alum, 318(3):181–185
and hypertension in Puerto Ricans, 318(6):369–373
managing hypertension in Southeastern United States, 318(6):357–364
rhabdomyolysis associated with near-drowning, 318(3):201–202
Renin
case of renal juxtaglomerular cell tumor: segmental sampling to prove autonomic secretion of tumor, 318(3):194–197
modulation of secretion by atrial natriuretic factor prohormone fragment 31–67, 318(5):330–335
Research
metamorphosis of scientific medicine in ever-present past, 318(3):171–180
survival of academic medicine in 21st century, 318(3):125–129

Rhabdomyolysis, associated with near-drowning, 318(3):201–202

Saliva
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6): 380–391
- efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404
- treatment of xerostomia with bile secretion-stimulating drug anethole trithione, 318(3):146–151

Sarcoidosis, rare case with bilateral leg lymphedema as initial symptom, 318(6):413–414

Scientific medicine, metamorphosis in ever-present past, 318(3):171–180

Smell
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6): 380–391
- efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404

Smoking
- outpatient management of chronic obstructive pulmonary disease, 318(2):79–83
- pathogenesis of chronic obstructive pulmonary disease, 318(2):74–78
- plasma leptin concentrations and lipid profiles during nicotine abstinence, 318(3):152–157

Southern Society for Clinical Investigation
- constitution, bylaws, and amendments, 318(3):138–141
- Founders Medal recipient's address, 318(3):132–134
- 1999 officers, 318(3):135–137
- presentation of Founders Medal to Dr. Juha Kokko, 318(3):130–131
- president's address: survival of academic medicine in 21st century, 318(3):125–129

Southwestern Internal Medicine Conference, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Stroke
- dominant role of systolic hypertension as vascular risk factor, 318(6):365–368
- managing hypertension in Southeastern United States, 318(6):357–364

Surgery
- for chronic obstructive pulmonary disease, 318(2):89–95
- surgery-associated factor VIII inhibitors in patients without hemophilia, 318(5):350–352

Systemic lupus erythematosus, IgA anticardiolipin and anti-β_2-glycoprotein I are most prevalent isotypes in African American patients with, 318(1):55–60

Taste
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6): 380–391
- efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404

Thrombotic thrombocytopenic purpura, treatment with cryosupernatant fraction of plasma, 318(3):190–193

Thyroid dysfunction
- blood volume and renal function in overt and subclinical primary hypothyroidism, 318(4):277–280
- high prevalence of hypothyroidism in patients with primary pulmonary hypertension, 318(5):289–292

Tirofiban, use of glycoprotein IIb/IIIa inhibitors in patients with coronary artery disease, 318(2):107–114

Tongue, pathophysiology of glossal pain in patients with iron deficiency and anemia, 318(5):324–329

Transferrin, measurement of serum transferrin receptor, 318(4):269–276

Transplantation
- surgical treatment of chronic obstructive pulmonary disease, 318(2): 89–95
- vaccination against hepatitis B in patients with chronic liver disease awaiting liver transplantation, 318(5): 304–307

Trimetazidine, fatty acid oxidation in reperfused ischemic heart, 318(1): 3–14

Vertebral fracture, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Vitamin E supplementation, effect on murine nasal allergy, 318(1):49–54

Women, treatment considerations in management of age-related osteoporosis, 318(3):158–169

Xerostomia, treatment with bile secretion-stimulating drug anethole trithione, 318(3):146–151

Zinc
- decreased parotid saliva gustin/carbonic anhydrase VI secretion: enzyme disorder manifested by gustatory and olfactory dysfunction, 318(6): 380–391
- efficacy of exogenous oral zinc in treatment of patients with carbonic anhydrase VI deficiency, 318(6):392–404
